DINE • DANCE • DRINK

the concept!

Just because your kitchen's closing for the evening doesn't mean you should stop making money! Turn you Dining Room into a Dance Floor and blow up your Liquor Sales!

As guests finish their meal & get up from their table, your servers should...

- Invite them to stay, dance & party!
- Invite them to temporarily step to the bar while preparations are being made!
- Clean, strip and move tables & chairs to the storage area, off to the side!

No Disc Jockey Required! All you need is a Computer or Laptop connected to your sound system and the internet and someone capable of typing "redbeats.net" in the address bar and you have an instant Disc Jockey! You're Welcome!

build excitement!

To build excitement during the preparation of Delicious Redbeats & Gravy...

- When $\frac{1}{3}$ of the tables have been removed, turn on the Mirror Ball and start gradually increasing the volume of the music!
- When $\frac{2}{3}$ of the tables have been removed, begin gradually dimming the Dining Room lights and begin using additional Disco Lighting!
- When the last table has been removed from the Dining Room floor, music should be at maximum volume, Dining Room lights should be fully dimmed and Delicious Redbeats & Gravy should be in full swing!
